Being a mature age student, my concern was not being able to fit in and that I would find full time studying difficult after such a long time. I was proven wrong on both accounts. Our class had students of different ages & backgrounds and both students & staff were supportive and encouraging of each other.

The course is very achievable and loads of fun! The teachers are extremely helpful - they really help you understand. The best part is APTT helps you find a job! If you have a passion for travel – APTT is the place to go. You will have loads of fun, meet new friends and gain a job.

The course includes work experience at a travel office over 10 weeks and I loved it!! I can use my knowledge from my class to work and also improve myself when working in the travel industry.

Certificate III at APTT was the perfect start for my career in the travel industry. APTT’s job placement program had me employed before I’d even finished my course!
